JAMMU & KASHMIR GOVERNMENT GAZETTE**

Vol. 132] Jammu, Fri., the 20th Sept., 2019/29th Bhad., 1941. [No. 25-3

Separate paging is given to this part in order that it may be filed as a separate compilation.

PART III

Laws, Regulations and Rules passed thereunder.

ô ô ô ó

**JAMMU AND KASHMIR GOVERNMENT,
SOLID WASTE MANAGEMENT BYE-LAWS, 2019.**

Notification

Lakhanpur, the 20th September, 2019.

In exercise of the powers conferred by clause (9) of rule 3 read with clauses (e), (f), (zf) and (zg) of rule 15 of the Solid Waste Management Rule, 2016, the Authority hereby make the following bye-laws ; namely :ô

CHAPTER I

1. *Short Title and Commencement.*ô (1) These bye-laws shall be called the [Name of the concerned ULB] Solid Waste Management Bye-Laws, 2019.

(2) They shall come into force on the date of their publication in the J&K Government Gazette.

2. *Extent of Application.* These bye-laws shall be applicable within the territorial limits of [Name of the concerned ULB].

3. *Definitions.* (1) In these bye-laws, unless the context otherwise requires,

- (1) “**Agency**” means [Name of the concerned ULB] ;
- (2) “**Aerobic composting**” means a controlled process involving microbial decomposition of organic matter in the presence of oxygen ;
- (3) “**Anaerobic digestion**” means a controlled process involving microbial decomposition of organic matter in the absence of oxygen ;
- (4) “**Authorization**” means the permission given by the State Pollution Control Board, to the operator of a facility or Urban Local authority, or any other agency responsible for processing and disposal of Solid waste ;
- (5) “**Biodegradable waste**” means any organic material that can be degraded by micro-organism into simpler stable compounds ;
- (6) “**Bio-methanation**” means a process which entails enzymatic decomposition of the organic matter by microbial action to produce methane rich biogas ;
- (7) “**Brand owner**” means a person or company who sells any commodity under a registered brand label ;
- (8) “**Bulk Garden and Parks & Horticultural Waste**” means bulk waste from parks, gardens etc. including grass clippings, weeds, woody -brown carbon-rich material such as branches, twigs, wood chipping, straw, dead leaves, tree trimmings, etc. which cannot be accommodated in the daily collection system for bio-degradable waste ;
- (9) “**Bulk Waste Generator**” means bulk waste generator defined under Rule 3(1)(8) of the Solid Waste Management

ULB], in the State collectively by owners and or/occupiers of one or more premises for storage of Municipal Solid Waste in a segregated manner in the road side/premises of anyone of such owners/occupiers or in their common premises ;

- (17) **“Composting”** means a controlled process involving microbial decomposition of organic matter ;
- (18) **“Co-processing”** means use of non-biodegradable and non-recyclable solid waste having calorific value exceeding 1500k/cal as raw material or as a source of energy or both to replace or supplement the natural mineral resources and fossil fuels in industrial processes ;
- (19) **“Containerised Hand Cart”** means the hand cart provided by the [Name of the concerned ULB], or the agency/agent appointed by it for point-to-point collection of solid waste ;
- (20) **“Decentralized processing”** means establishment of dispersed facilities for maximizing the processing of biodegradable waste and recovery of recyclables closest to the source of generation so as to minimize transportation of waste for processing or disposal ;
- (21) **“Delivery”** means handing over any category of solid waste to worker of [Name of the concerned ULB] or any other person appointed, authorised or licensed by Municipal [Name of the concerned ULB] for taking delivery of such waste or depositing it in any vehicle provided by [Name of the concerned ULB], or by any other authorised agency or licensed by [Name of the concerned ULB] to do so ;
- (22) **“Disposal”** means the final and safe disposal of post processed residual solid waste and inert street sweepings and silt from surface drains on land to prevent contamination of ground water, surface water, ambient air and attraction of animals or birds ;
- (23) **“Domestic hazardous waste”** means discarded paint drums, pesticide cans, CFL bulbs, tube lights, expired

- (32) **“Fine”** means penalty imposed on waste generators or operators of waste processing and disposal facilities under the bye-laws for non-compliance of the directions contained in rules and/or these bye-laws ;
- (33) **“Fixed Compactor Transfer Station (FCTS)”** means a powered machine which is designed to compact segregated solid waste and remains stationary when in operation. The compacts or may also be mobile when in operation, which may be called Mobile Transfer Station (MTS).
- (34) **“Handling”** includes all activities relating to sorting, segregation, material recovery, collection, secondary storage, shredding, baling, crushing, loading, unloading, transportation, processing and disposal of solid wastes ;
- (35) **“Hazardous waste”** means any waste which by reason of any of its physical, chemical, reactive, toxic, causing danger or is likely to cause danger to health or environment, whether alone or when in contact with other wastes or substances and all other hazardous wastes as defined in the Hazardous Wastes (Management and Handling) Rules, 1989 as amended to date and the Hazardous and other waste (Management and Transboundary Movement) Rules, 2016.
- (36) **“Horticulture, Parks and Garden Waste”** means waste from parks, gardens traffic island etc. These include grass clipping, annual weeds woody 'brown' carbon-rich material such as branches, twigs, wood chipping, straw, dead leaves, tree trimmings, etc. which cannot be accommodated in the daily collection system for bio-degradable waste ;
- (37) **“House-gully”** means a passage or strip of land, constructed, set apart or utilized for the purpose of serving as or carrying a drain or affording access to the latrine, urinal, cesspool or other receptacle for filling of other polluted matter by persons employed in the clearing thereof or in the removal of such matter therefrom.

local body or entity for the purpose before the waste is delivered or taken up for its processing or disposal ;

- (46) “**Neighbourhood**” means a clearly defined locality, with reference to its physical layout, character or inhabitants ;
- (47) “**New construction**” means all buildings under construction within the limits of the [Name of the concerned ULB] ;
- (48) “**Non-biodegradable waste**” means any waste that cannot be degraded by microorganisms into simpler stable compounds ;
- (49) “**Nuisance**” includes any act, omission, place or thing which comes or is likely to cause injury, danger, annoyance or offence to the sense of sight, smelling or hearing or which is or may be dangerous to life or injurious to health or property ;
- (50) “**Nuisance Detectors**” (NOs) means those employees of the [Name of the concerned ULB] who are appointed to detect the acts of Public nuisance, etc. ;
- (51) “**Occupier/occupant**” includes any person who for the time being is in occupation of, or otherwise using, any land or building or part thereof, for any purpose whatsoever ;
- (52) “**Operator of a facility**” means a person or entity, who owns or operates a facility for handling solid waste which includes the [Name of the concerned ULB] and any other entity or agency appointed by the [Name of the concerned ULB] ;
- (53) “**Owner**” means any person who exercises the rights of an owner of any building, or land or part thereof ;
- (54) “**Pelletisation**” means a process whereby pellets are prepared which are small cubes or cylindrical pieces made out of solid waste and includes, fuel pellets which are also referred as refuse derived fuel ;

- (63) **“Refuse”** means any waste matter generated out of different activities, processes, either Bio-degradable/Non-biodegradable/recyclable in nature in either solid or semi-solid form which cannot be consumed, used or processed by the generator in its existing form.
- (64) **“Refuse Derived Fuel” (RDF)** means fuel derived from combustible waste fraction of solid waste like plastic, wood, pulp or organic waste, other than chlorinated materials, in the form of pellets or fluff produced by drying, shredding, dehydrating and compacting of solid waste ;
- (65) **“Residual solid waste”** means and includes the waste and rejects from the solid waste processing facilities which are not suitable for recycling or further processing ;
- (66) **“Rule”** means Solid Waste Management Rules, 2016 ;
- (67) **“Sanitation”** means the promotion of hygiene and the prevention of disease and other consequences of ill health relating to environmental factors ;
- (68) **“Sanitary Landfill Facility”** means a waste disposal site for the deposit of residual solid waste in a facility designed with protective measures against pollution of ground water, surface water and air fugitive dust, wind-blown litter, bad odour, fire hazard, bird menace, pests or rodents, greenhouse gas emissions, slope instability and erosion ;
- (69) **“Sanitary land filling”** means the final and safe disposal of residual solid waste and inert wastes on land in a facility designed with protective measures against pollution of ground water, surface water and fugitive air dust, wind-blown litter, bad odour, fire hazard, animal menace, bird menace, pests or rodents, greenhouse gas emissions, persistent organic pollutants slope instability and erosion ;
- (70) **“Sanitary waste”** means wastes comprising of used diapers, sanitary towels or napkins, tampons, condoms, incontinence sheets and any other similar waste ;

- (71) **“Sanitary worker”** means a person employed by the municipal corporation for collecting or removing MSW or cleansing the drains in the municipal/corporation areas ;
- (72) **“Schedule”** means the Schedule appended to these rules ;
- (73) **“Storage”** means the temporary containment of solid waste in a manner so as to prevent littering, attraction to vectors, stray animals and excessive foul odour ;
- (74) **“Secondary storage”** means the temporary containment of solid waste after collection at secondary waste storage depots or MRFs or bins for onward transportation of the waste to the processing or disposal facility ;
- (75) **“Segregation”** means sorting and separate storage of various components of solid waste namely biodegradable wastes including agriculture and dairy waste, non biodegradable wastes including recyclable waste, non-recyclable combustible waste, sanitary waste and non recyclable inert waste, domestic hazardous wastes, and construction and demolition wastes ;
- (76) **“Service provider”** means an authority providing public utility services like water, sewerage, electricity, telephone, roads, drainage, etc. ;
- (77) **“Solid waste”** means and includes solid or semi-solid domestic waste, sanitary waste, commercial waste, institutional waste, catering and market waste and other non-residential wastes, street sweepings, silt removed or collected from the surface drains, horticulture waste, agriculture and dairy waste, treated bio-medical waste, Hazardous waste excluding industrial waste, bio-medical waste and e-waste, battery waste, radio-active waste generated in the area under the local authorities and other entities ;
- (78) **“Sorting”** means separating various components and categories of recyclables such as paper, plastic, cardboards, metal, glass, etc., from mixed waste as may be appropriate to facilitate recycling ;

- (79) **“Source”** means the premises in which the waste is generated or a community storage centre used by owners/occupiers of one or more premises for segregated storage of MSW ;
- (80) **“Spittoon”** means a metal or earthenware pot typically having a funnel-shaped top, used for spitting into.
- (81) **“Stabilising”** means the biological decomposition of biodegradable wastes to a stable state where it generates no leachate or offensive odours and is fit for application to farm land, soil erosion control and soil remediation ;
- (82) **“Stabilised biodegradable waste”** means the biologically stabilized (free of pathogens) waste resulting from the mechanical/biological treatment of bio degradable waste ; only when stabilised can such waste be used with no further restrictions ;
- (83) **“Street vendor”** means any person engaged in vending of articles, goods, wares, food items or merchandise of everyday use or offering services to the general public, in a street, lane, side walk, footpath, pavement, public park or any other public place or private area, from a temporary built up structure or by moving from place to place and includes hawker, peddler, squatter and all other synonymous terms which may be local or region specific; and the words ÷street vendingø with their grammatical variations and cognate expressions, shall be construed accordingly ;
- (84) **“Tipping fee”** means a fee or support price determined by the local authorities or any state agency authorised by the State government to be paid to the concessionaire or operator of waste processing facility or for disposal of residual solid waste at the landfill ;
- (85) **“Transportation”** means conveyance of solid waste, either treated, partly treated or untreated from a location to another location in an environmentally sound manner through specially designed and covered transport system so as to prevent the foul odour, littering and unsightly conditions ;

- (93) **“Waste picker”** means a person or groups of persons informally engaged in collection and recovery of reusable and recyclable solid waste from the source of waste generation, streets, bins, material recovery facilities, processing and waste disposal facilities for sale to recyclers directly or through intermediaries to earn their livelihood.

CHAPTER II

SEGREGATION AND PRIMARY STORAGE OF SOLID WASTE

4. *Segregation and storage of solid waste at source.* (1)

It shall be necessary for all waste generators to separate and store the solid waste coming out of their own places regularly into three streams namely :

- (a) non-biodegradable or dry waste ;
- (b) biodegradable or wet waste ;
- (c) domestic hazardous waste; and deposit it into covered waste bins, and handover segregated waste to designated waste collectors as per the direction of [Name of the concerned ULB], from time to time.

(2) Every bulk waste generator is to separate and store the solid waste coming out of their own places into three streams namely :

- (a) non-biodegradable or dry waste ;
- (b) biodegradable or wet waste ;
- (c) hazardous waste in suitable bins ; and handover segregated waste to authorised waste processing or disposal facilities or deposition centres through the authorised waste collection agency with paying the carrying charges specified by [Name of the concerned ULB] from time to time.

(3) The colour of bins for storage of segregated waste shall be green- for biodegradable waste or wet waste blue - for non- biodegradable or dry waste and black- for domestic hazardous waste.

No. 25-3] The J&K Govt. Gazette, 20th Sept., 2019/29th Bhad., 1941. 15
ooô ôôô ô

(4) All resident welfare and market associations shall ensure segregation of waste at source by the generators, facilitate collection of segregated waste in separate streams, handover recyclable material to either the authorised waste pickers or the authorised recyclers. The bio-degradable waste shall be processed, treated and disposed of through composting or bio-methanation within the premises as far as possible. The residual waste shall be given to the waste collectors or agency as directed by [Name of the concerned ULB].

(5) All gated communities and institutions with more than 5,000 sq. m. area shall ensure segregation of waste at source by the generators, facilitate collection of segregated waste in separate streams, handover recyclable material to either the authorised waste pickers or the authorised recyclers. The bio-degradable waste shall be processed, treated and disposed off through composting or bio-methanation within the premises as far as possible. The residual waste shall be given to the waste collectors or agency as directed by [Name of the concerned ULB].

(6) All hotels and restaurants shall ensure segregation of waste at source, facilitate collection of segregated waste in separate streams, handover recyclable material to either the authorised waste pickers or the authorised recyclers. The bio-degradable waste shall be processed, treated and disposed of through composting or bio-methanation within the premises as far as possible. The residual waste shall be given to the waste collectors or agency as directed by [Name of the concerned ULB].

(7) No person shall organize an event or gathering of more than one hundred persons at any unlicensed place without intimating [Name of the concerned ULB] along with payment of user fee as prescribed in the schedule, at least three working days in advance and the person or the organizer of such event shall ensure segregation of waste at source and handing over of segregated waste to waste collector or agency as specified by [Name of the concerned ULB].

(8) Used sanitary waste are to be securely wrapped as and when generated in the pouches provided by the manufacturers or brand owners of these products or in a news paper or suitable biodegradable wrapping material and place the same in the bin meant for non-biodegradable waste or dry waste.

(9) Every street vendor shall keep suitable containers for storage of segregate waste generated during the course of his activity such as food waste, disposable plates, cups, cans, wrappers, coconut shells, leftover food, vegetables, fruits, etc., and shall deposit such waste at waste storage depot or container or vehicle as notified by [Name of the concerned ULB].

(10) Waste generator of garden and horticulture waste generated from his premises shall store such waste separately in his own premises and dispose of the same as per the directions of [Name of the concerned ULB] from time to time.

(11) Domestic Hazardous Waste shall be stored and delivered by every waste generator to the collection vehicle which shall be provided weekly/periodically by [Name of the concerned ULB] or any other Agency authorised by it for collection of such waste, or to a centre designed for collection of such waste for disposal in a manner that is mandated by the Government of Jammu and Kashmir or State Pollution Control Board.

(12) Construction and Demolition Waste shall be stored and delivered separately as per the Construction and Demolition Waste Management Rules, 2016.

(13) No untreated bio-medical waste, e-waste, hazardous chemicals and industrial waste shall be mixed with solid waste. Such waste shall be disposed off in accordance with the respective rules framed under the Environment (Protection) Act, 1986.

(14) Every owner/occupier of any premises other than designated slaughter houses and markets, who generates poultry, fish and slaughter waste as a result of any commercial activity, shall store the same separately in closed, hygienic condition and deliver it at a specified time, on a daily basis to the [Name of the concerned ULB] collection vehicle provided for this purpose. Depositing of such waste in any community waste bin is strictly prohibited.

(15) Segregated bio-degradable solid waste if not composted by the generators, shall be stored by them within their premises and its delivery shall be ensured to the municipal worker/vehicle/waste picker/waste collector or to the bio-degradable waste collection vehicle provided for specified commercial generators of bulk bio-degradable waste at such times as may be notified from time to time.

(7) Manual handling of waste in the containers shall be prohibited. If unavoidable due to constraints, manual handling shall be carried out under proper protection with due care for safety of workers.

(8) Waste generators shall be responsible to deposit their segregated waste in the Auto-Tipper/Rickshaws etc. deployed by [Name of the concerned ULB]. Segregated waste from multistoried buildings, apartments, housing complexes may be collected from the entry gate or any other designated location.

(9) Changing needs and advances in technology shall be taken into consideration for selection of collection equipment and vehicles. Auto-Tippers or vehicles of specific capacity with hydraulically operated hopper covering mechanism from top having two compartments for carrying biodegradable and non-biodegradable waste separately with a hooter shall be deployed for collection of waste.

(10) Automatic voice recorded device, bell or horn having sound not more than the permissible noise level shall be installed on every garbage collection vehicle used by waste collectors.

(11) Route plans for each primary collection and transportation vehicle shall be provided by [Name of the concerned ULB] or by the notified authorised waste collector. These plans in tabular as well as GIS map form, duly approved by [Name of the concerned ULB] shall mention starting point, start time, waiting points, waiting time on route, end point and end time of the specified route. [Name of the concerned ULB] or the notified authorised waste collector shall provide a 'Board' at each street to display time-table of primary collection and transportation vehicles to allow residents avail the facility at prescribed time. Such information shall also be uploaded on the website of [Name of the concerned ULB] and published in the local leading newspaper periodically for the information of General Public.

(12) In narrow streets that cannot be serviced by auto tipper or the vehicle, a 3-Wheeler or smaller motorized vehicle with hydraulically operated hopper covering mechanism from top having two compartments for carrying wet and dry waste separately with a hooter, compatible with mobile transfer station shall be deployed.

(3) Different containers shall be used in the areas demarcated by [Name of the concerned ULB] to keep segregated waste in the following manner :ô

- (a) green- for biodegradable waste ;
- (b) blue - for non-biodegradable ;
- (c) black - for domestic hazardous waste ;

[Name of the concerned ULB] shall separately notify, from time to time, mandatory colour coding and other specifications of receptacles prescribed for storage and delivery of different types of solid waste to enable safe and easy collection without any mixing or spillage of waste, which generators of different types of solid waste shall have to adhere to.

(4) [Name of the concerned ULB] on its own or through outsourcing agencies shall maintain the storage facilities for solid waste in a manner that does not create unhygienic and unsanitary conditions around it.

(5) Containers of various sizes in the secondary storage depots shall be provided by [Name of the concerned ULB] or any assigned agencies in different colours as mentioned in these bye-laws.

(6) Storage facilities shall be created and established by taking into account quantities of waste generation in a given area and the density of population.

(7) Storage facilities shall be user friendly and shall be so designed that it ensures compaction of waste and that the waste stored is not exposed to open atmosphere.

(8) All the housing cooperative societies, associations, residential and commercial establishments and gated communities etc. shall have the responsibility to put coloured bins as prescribed by these bye-laws and to keep adequate number of containers in appropriate places in their own complexes, so that the daily waste generated there can be properly deposited.

(9) [Name of the concerned ULB] or its specified agency shall carry out washing and disinfection of all the bins on a weekly basis.

(10) Recycling Centers for Dry Waste (Non-Biodegradable Waste)ô

(a) [Name of the concerned ULB] shall convert its existing Dhalaos or identify specific location as per requirement, as 'Recycling Centersø which shall be used for segregation of dry waste received through street/door to door waste collection service. Recycling centers may be increased depending on the quantity of dry waste received.

(b) Dry (non-biodegradable) waste from street/door-to-door collection system and from commercial establishments shall be transferred only to these designated recycling centersø These designated centers shall receive only dry waste.

(c) There shall also be a provision for the households to directly deposit or sell their recyclable dry waste to the authorised agents and/or authorised waste dealers of [Name of the concerned ULB] at these recycling centers at pre-notified rates. A weighing scale and a counter shall be provided at each recycling unit for this purpose. The authorised agents and/or authorised waste dealers shall be allowed to dispose off or sell the recyclable waste to the secondary market or recycling units only in consonance with the provisions of SWM Rules, 2016. The authorised agents and/or authorised waste dealers will be entitled to retain sales realization thereof.

(11) Deposition Centre for specified Domestic Hazardous Wasteô

(a) For the collection of domestic hazardous waste, a deposition centre will be set up at a suitable location for receiving the

specified domestic hazardous waste. Such facility shall be set in each ward in a manner as per guidelines prescribed and notify the timing of receiving of such waste.

- (b) [Name of the concerned ULB] may also give the responsibility to its agency or concessionaire to collect domestic hazardous waste from all waste generators in segregated manner.
- (c) Such waste shall be transported separately to the hazardous waste disposal facility set up by the Government.

CHAPTER V

TRANSPORTATION OF SOLID WASTE

7. *Transportation of solid waste.* (1) Vehicles used for transportation of waste shall be covered in such manner that the collected waste is not exposed to open environment. The vehicles may also include compactors and mobile transfer stations depending upon choice of technology by [Name of the concerned ULB].

(2) The storage facilities set up by [Name of the concerned ULB] shall be attended daily for clearing waste. The areas around the place where the bins or containers are kept shall also be cleaned.

(3) Collected segregated bio-degradable waste from residential and other areas shall be transferred to the processing plants like compost plants, bio-methanation plants or any such other facilities in a covered manner.

(4) Wherever applicable, for bio-degradable waste, preference shall be given for on-site processing of such waste.

(5) Collected non-bio-degradable waste shall be transported to the respective processing facilities or secondary storage facilities.

(6) Construction and Demolition Waste shall be transported as per the provisions of the Construction and Demolition Waste Management Rules, 2016.

(7) [Name of the concerned ULB] shall make arrangements for transportation of inerts in a proper manner. The street sweeping waste and removable drain silt shall be removed immediately after the work is over.

(8) Transportation vehicles shall be so designed that multiple handling of waste, prior to final disposal, is avoided.

(9) The collection vehicles engaged for the purpose shall deposit/ transfer waste only at the MTS (Mobile Transfer Station) or FCTS (Fixed compactor Transfer Stations) wherever provided.

(10) In case MTS/FCTS is not stationed at the designated location at that point of time for any reason, then the 'loaded vehicle' shall go to the next designated location of the MTS or FCTS or the site specified by [Name of the concerned ULB] to unload the waste.

(11) Fixed compactor transfer station shall be transported through hook loader.

(12) MTS or FCTS shall transport the waste directly to compost plant, waste to energy plant or any other site/plant designated by [Name of the concerned ULB].

(13) There should be no inter-mixing of waste from various sources during the transportation of waste.

(14) The services of street level collection and transportation of waste shall be provided every day including holidays.

(15) MTS engaged in this service shall receive waste only from designated auto tippers, 3-wheelers or vehicle/bins collecting waste from street level operations.

(16) Dedicated MTS shall be deployed at specified locations to receive waste from the Auto Tippers, 3-Wheelers, Rickshaws etc. engaged

in street-level and door-to-door collection of solid waste from households and commercial establishments as per the approved route plans.

(17) Design of MTS and FCTS shall allow unloading of waste from primary collection vehicles by consuming minimum time and without littering waste.

(18) Garbage spilled near MTS and FCTS, while transferring the solid waste, should be cleaned so that no spillage is left. Disinfectant should be used after cleaning process at that location.

(19) [Name of the concerned ULB] or its specified agency shall install CCTV cameras at all secondary storage facilities.

CHAPTER VI

PROCESSING OF SOLID WASTE

8. *Processing of solid waste.* (1) [Name of the concerned ULB] shall facilitate construction, operation and maintenance of solid waste processing facilities and associated infrastructure on their own or through any agency for optimum utilisation of various components of solid waste adopting suitable technology including the following technologies and adhering to the guidelines issued by the Ministry of Urban Development from time to time and standards prescribed by the Central Pollution Control Board :

- (a) to minimise transportation cost and environmental impacts, preference shall be given to decentralised processing such as bio-methanation, microbial composting, vermi-composting, anaerobic digestion or any other appropriate processing for bio-stabilisation of biodegradable waste ;
- (b) through medium/large composting bio-methanation plants at centralised locations ;
- (c) through waste to energy processes by refuse derived fuel for combustible fraction of waste or supply as feed stock to solid waste based power plants ; and/or

(d) through construction and demolition waste management plants.

(2) [Name of the concerned ULB] shall endeavour to create a market for consumption of RDF (Refuse Derived Fuel). The cement factories are liable to take RDF from municipal dumping sites who have to use RDF to the order of 5% of the total fuel burnt by them in their kilns.

(3) In waste to energy plant by direct incineration, absolute segregation shall be mandatory and be part of the terms and conditions of the relevant contracts.

(4) [Name of the concerned ULB] shall ensure that recyclables such as paper, plastic, metal, glass, textile etc. go to authorised recyclers.

9. *Other guidelines for processing of solid waste.* (1) [Name of the concerned ULB] shall enforce processing of bio-degradable waste on site of generation of such waste through composting or bio-methanation, as far as possible, at RWAs (Resident Welfare Associations), group housing societies, markets, gated communities and institutions with more than 5000 sq. m. areas, all hotels and restaurants, banquet halls and places of such nature. Preference shall be given for on site processing of biodegradable waste generated by other waste generators as well.

(2) Bulk generators who fail to install waste processing units within their premises shall be liable for fine to install such processing units with time line envisaged in the notices. If they perpetually fail to establish waste disposal system within six months after first notice issued to them, the ULBø are empowered to seal such erring bulk waste generating business establishments.

(3) [Name of the concerned ULB] shall enforce that markets dealing with vegetables, fruits, flowers, meat, poultry and fish waste while processing bio-degradable waste ensure hygienic conditions.

(4) [Name of the concerned ULB] shall enforce processing of horticulture, parks and garden waste separately in the parks and gardens by the generators.

(5) [Name of the concerned ULB] shall involve communities in waste management and promote home composting, bio gas generation, decentralized processing of waste at community level, subject to control of odour and maintenance of hygienic conditions around the facility.

(6) The waste generator has to pay user charges/sanitation fee to the local bodies inspite of the fact if they process their waste at their institutional level.

CHAPTER VII

DISPOSAL OF SOLID WASTE

10. *Disposal of Solid waste.* [Name of the concerned ULB] shall undertake on its own or through any other agency, the construction, operation and maintenance of sanitary landfill and associated infrastructure for disposal of residual waste and inert street sweepings and silt from surface drains in a manner prescribed under SWM Rules and any other obligation imposed by any other law for the time being in force.

CHAPTER VIII

USER FEE AND LEVYING OF SPOT FINE/PENALTY

11. *User fee for collection, transportation, disposal of solid waste.* (1) User fee shall be fixed for providing services for garbage collection, transportation and disposal from waste generators by [Name of the concerned ULB]. The rates of user fee are specified in Schedule-I.

(2) The user fee so fixed shall be collected from waste generators by [Name of the concerned ULB] or the authorised agency or person as may be authorised by Commissioners/Director [Name of the concerned ULB] in this behalf.

(3) [Name of the concerned ULB] shall prepare the database of all the waste generators for the purpose of levying user fee, and evolve appropriate mechanism for billing/collection/recovery of user charges, within three months from the date of notification of these bye-laws. The database shall be updated regularly.

(5) The fine shall be levied and collected on the spot by the designated officers. In case of non-payment of fine at the spot, the procedure for prosecution prescribed under provisions of the Environment (Protection) Act, 1986 shall follow.

(6) In realization of fines imposed on defaulters, the J&K State Pollution Control Board shall not renew the licenses of hotels and other business units unless an NOC is not procured by the business unit/s from the concerned [Name of the concerned ULB].

(7) Fine shall be imposed on the hospitals and allied concerns if they are found mixing bio-medical wastes with municipal solid waste.

(h) Charges for the material recovery by rag pickers or waste dealers to be decided by the concerned Local Bodies.

(8) Concession to bulk purchasers of compost/plastic/tin and recyclables on the price of by product, if any, as a result of processing of Solid Waste shall be decided by the [Name of the concerned ULB].

(j) The cement manufacturing units shall be responsible to lift the RDF from municipal dumping sites and their license renewals be linked with [Name of the concerned ULB] NOCø.

(9) Tippers ferrying building material and causing avoidable waste on the streets shall be liable for fine to be decided by the [Name of the concerned ULB] but not less than Rupees Five Hundred (500/-) per default.

13. *Responsibilities of Waste Generators.*ô (1) Prohibition of litteringô

(a) Littering in any public place : No person shall litter in any public place except in authorised public or private litter receptacles. No person shall repair vehicles, wash/clean utensils or any other object or keep any type of storage in any public place except in such public facilities or conveniences specifically provided for any of these purposes.

(b) Littering on any property : No person shall litter on any open or vacant property except in authorised private or public receptacles.

on the completion of the event after it is noted that the said public place has been restored back to a clean state, and any waste generated as a result of the event has been collected and transported to designated sites. This deposit will be only for the cleanliness of the public place and does not cover any damage to property. In case the organisers of the event wish to avail of the services of the [Name of the concerned ULB] for the cleaning, collection and transport of waste generated as a result of that event, they must apply to the [Appriopriate officer in the concerned ULB] for availing the services and pay the necessary charges as may be fixed by the Competent Authority for this purpose.

(6) Dumping of solid waste on vacant plot and depositing construction and demolition waste at non-designated locations shall be dealt with by the [Name of the concerned ULB] in the following manner :ô

- (a) The [Name of the concerned ULB] may serve a notice on the owner/occupier of any premises, requiring such owner/occupier to clear any waste on such premises in a manner and within a time specified in such notice.
- (b) If the person on whom the notice has been served fails to comply with the requirements imposed by the notice, such person shall be liable to pay penalties as prescribed from time to time.
- (c) If the person on whom the notice is served fails to comply with any requirements imposed by such notice, the [Name of the concerned ULB] mayô
 - (i) Enter on the premises and clear the waste ; and
 - (ii) Recover from the occupier the expenditure incurred in having done so.

responsible for ensuring regular system of surface cleaning of all common streets/ roads, public places, temporary settlements, slum areas, markets, its own parks, gardens, drains etc. by employing human resources and machines and shall be bound to collect the garbage from the declared storage containers, and transport it every day to the final disposal point in closed vehicles for which [Name of the concerned ULB] may engage private parties on contract or Public Private Partnership mechanism with the prior approval of Govt., apart from its own cleaning staff and vehicles. In addition, [Name of the concerned ULB] shall identify all the commercial areas for carrying out sweeping twice a day.

(2) [Name of the concerned ULB] or the authorised agency engaged by it shall provide and maintain sufficient number of community litter bins of sufficient size on public roads, in surroundings of railway stations, bus stops, religious places, in commercial areas etc.

(3) [Name of the concerned ULB] for the purpose of managing solid waste activities in decentralized and regular manner shall designate one officer in every ward to supervise the spots of containers, public toilets, community toilets or urinals in public places, transfer station for public garbage, landfill processing units etc.

(4) The competent authority shall designate sufficient Senior Officer/s, preferably not below the rank of [to be decided by the ULB concerned], as Nodal Officer/s to monitor the progress of segregation, collection, transportation, processing and disposal of solid waste.

(5) Each ward shall be divided into sweeping beats based on the prescribed parameter and deploy manpower accordingly or rationalize the existing deployment and monitor their work by using latest technology. Wherever it is unable to get sweeping through its own staff, it may outsource through contract. Each beat shall be inspected by the supervising officials on daily basis prescribed as per directions.

(6) [Name of the concerned ULB], shall employ latest road/street cleaning machines, mechanical sweepers or other equipments which improves the efficiency of sweeping and drainage cleaning.

(7) [Name of the concerned ULB] shall create awareness and sensitization through Information, Education and Communication (IEC) campaign and educate the waste generators and other stakeholders about

No. 25-3] The J&K Govt. Gazette, 20th Sept., 2019/29th Bhad., 1941. 33
the various provisions of Solid Waste Management Rules and these by-laws with special emphasis on user fee and fines/penalties.

(8) [Name of the concerned ULB] shall encourage waste generators to treat wet waste at source. It may consider creating systems for incentives for adoption of decentralized technologies such as bio-methanation, composting etc. Incentives may be like awarding and recognizing the households. RWAs and institutions etc. by giving certificates by publishing their names on respective websites or rebate in property tax etc.

(9) [Name of the concerned ULB] shall ensure that the authorities of Agriculture Department, Floriculture Department, Horticulture, SKAUST are supplied with sufficient quantity of compost generated out of organic waste to phase out the use of chemical fertilizers and use compost in all parks, gardens maintained by them and wherever possible in other places under its jurisdiction. Incentives may be provided to recycling initiatives by informal waste recycling sector and shall take up with the Directorate of Horticulture, Agriculture and Floriculture for use of compost.

(10) [Name of the concerned ULB] shall make efforts to streamline and formalize solid waste management systems and endeavour that the informal sector workers in waste management (waste pickers) are given priority to upgrade their work conditions and are enumerated and integrated into the formal system of solid waste management.

(11) [Name of the concerned ULB] shall ensure that the operator of a facility provides personal protection equipment including uniform, fluorescent jacket, hand gloves, raincoats, appropriate foot wear and masks to all workers handling solid waste and the same are used by the workforce.

(12) [Name of the concerned ULB] shall ensure occupational safety of its own staff and staff of outsourced agency involved in collection transport and handling of waste by providing appropriate and adequate personal protective equipments.

(13) In case of an accident at any solid waste processing or treatment or disposal facility or landfill site, the officer-in-charge of the facility shall report to [Name of the concerned ULB] immediately which shall review and issue instructions, if any, to the in-charge of the facility.

(14) Regular checks : [Designation of the Officers in the concerned ULBs] shall conduct regular checks in various parts of the wards and other places of collection, transportation, processing and disposal of solid waste to supervise compliance of various provisions of SWM Rules and these bye-laws.

(15) [Name of the concerned ULB] shall develop a public grievance redressal system (PGRS) by setting up of call centre at its headquarter. The PGRS may include SMS based service mobile application or web based services.

(16) [Name of the concerned ULB] shall install bio-metric/smart card technologies/ICT System for tracking and recording attendance of employees associated with the working of SWM Rules and these bye-laws at Hq./all zones/ward offices etc. and shall make an endeavour to integrate such system with the salary/wages/remuneration.

(17) Transparency and Public Accessibility : To ensure greater transparency and public accessibility, [Name of the concerned ULB] shall provide all necessary information through its website.

(18) [Name of the concerned ULB] shall perform all other duties mentioned in SWM Rules, which have not been specifically mentioned in these bye-laws.

CHAPTER X

MISCELLANEOUS

15. If any doubt or difficulty arises in the interpretation or implementation of these bye-laws the same shall be placed before Administrative Secretary of Housing and Urban Development Department, whose decision in the matter shall be final.

16. *Co-ordination with Government Bodies.*—[Name of the concerned ULB] shall co-ordinate with other government agencies and authorities, to ensure compliance of these bye-laws within areas under the jurisdiction or control of such bodies. In case of any difficulty matter shall be placed before Chief Secretary of Government of J&K.
